

SIP Project Presentation

Presented By: ANITA MAITY

Course: MCA

College Name: NIIS GROUP OF
INSTITUTIONS

INTRODUCTION:

It reduces manual work and improves accuracy in attendance management.

The Online Attendance System is a software application used to manage and track student attendance digitally.

OBJECTIVE OF PROJECT

To reduce paperwork

- To save time for teachers and students
- To generate attendance reports easily
- To improve accuracy and data security
- To maintain attendance records digitally

PROBLEM STATEMENT

- 1.Traditional attendance systems have many problems:
- 2.Manual errors
- 3.Time consuming process
- 4.Difficult record management
- 5.Chances of fake attendance
- 6.Hard to generate reports

PROPOSED SOLUTION

- 1.The Online Attendance System provides:
- 2.Digital attendance marking
- 3.Student database management
- 4Automatic report generation
- 5.Secure login system
- 6.Easy attendance tracking

CONCLUSION

>:-The Online Attendance System helps institutions manage attendance digitally in an efficient and simple way.

THANK YOU
